## Developing Your CPL Portfolio

Delivered by Vanushan Maheenthon, Learn and Grow Consulting

This one day workshop is designed for Early Childhood Educators that need guidance in completing their CPL portfolio before their deadline. By taking this series, participants will have completed 80% of their portfolio and be knowledgeable regarding the final 20%. This series is an excellent opportunity for your staff to collaborate with each other to create effective goals appropriate for your center. In previous sessions many participants had found creating center or classroom-based goals to be an effective method in complying with the CPL portfolio requirements.
